Pacific Guardian Center
Suite 2800, Makai Tower
733 Bishop Street
Honolulu, HI 96813

(808) 441-3600
Fax: (808) 441-3601
Website: <http://www.nova-sol.com>

History: Founded in 1998

Facilities: NovaSol maintains offices in two locations, with its headquarters in Honolulu.

Ownership: Private

Commercial Market Sectors:

Defense/Aerospace

Information/Communication Technology

Areas of Research: Sensors, optics, optical communication, navigation and stabilization, spectral and spatial algorithms, and data analysis

Company Description:

NovaSol specializes in the research, engineering development, and productization of next-generation active and passive optical systems. These systems provide coverage of the entire spectrum from the ultraviolet to the infrared with panchromatic to ultraspectral resolution. In the execution of each program or project, NovaSol applies its core technical competencies in sensors, optics, navigation and stabilization, spectral and spatial algorithms, real-time systems, and data analysis.

Products:

NovaSol offers a variety of products and services, including hyperspectral sensors for commercial and military customers, airborne and ground based remote sensing systems, real time processing solutions, optical communication systems, and data analysis tools and services.
